PEP 484 – Type Hints

- Created September 2014
- Accepted for Python 3.5

- Python is dynamically typed, but has allowed function annotations since Python 3.0 (2006)

-

Three

```python
def greeting(name):
    return 'Hello ' + name
```

Four

```python
def greeting(name: str) -> str:
    return 'Hello ' + name
```
